AMERICAN CHRISTIANS SPEND \$400,000,000 FOR THEIR WORK

Church Erection Outlay Reached Forty Million Last Year—Forty-five for Home and Sixteen Millions for Foreign Missions—Open-air Preaching in Brazil—
—By Southern Missionary News Bureau—
Ida Clyde Clarke—Editor.

The Churches News association is authority for the following statement:

Reports now fairly complete indicate that there will go into new churches and into buildings intended to advance the Christian cause in America between \$35,000,000 and \$40,000,000 this summer and fall. Delays in construction operations may carry some of this outlay over into next winter, perhaps beyond the end of the year, but such sums are offset by those expended since the beginning of 1914, so that the church-erection outlay in the United States for the year will reach about \$40,000,000.

This sum is \$3,000,000 to \$5,000,000 above normal, indicating that causes that effect business in general and have hurt gifts to missions and to charities, do not prevail against the carrying forward of new projects. The largest outlays along these lines are in New York and New England for the east, in California because of new structures going up for use at the Panama Exposition, and in the southwest. The middle west has been building churches in considerable numbers for the last five years, and this summer slacks up to some extent, although Chicago runs far ahead compared with other years.

The American people put into Christian work of all forms \$400,000,000 a year. This amount grows steadily, having nearly doubled in the last fifteen years. Some people say the church is losing ground and that people do not go to church as they once did. However that may be, they give money in larger sums and seem not to have been affected in so doing by financial stringency in other lines. Of the total amount named \$45,000,000 a year goes to so-called home missions (a very broad term), and \$35,000,000 into new structures and enrichments; about \$16,000,000 goes into foreign missions, and the balance into maintenance. Apart from these, Christian people give large sums to charities and public relief of all kinds. Indeed, while Christians number only about a third of the population, they give \$3 out of every \$4 that goes to charities, education, earthquake and flood disasters.

The above statement is in striking contrast with the expenditure on the foreign field. The income of all the societies in this country for 1913 was about \$16,400,000. The expenditure for the homeland includes some 100,000,000 of souls who in a very important way now have the gospel at their very doors, while the expenditures in the regions beyond include about 800,000,000 who do not have the gospel in any sense. These great facts are basis for thinking by Christian people.

Open-Air Preaching in Brazil.

Open-air preaching one thousand miles up the Amazon river has proven popular and effective, according to E. A. Nelson of Manaus, Brazil.

The people are not accustomed to hearing services and it does not occur to them to go to church for that purpose. Mr. Nelson says:

"Quite a few have read and traveled, and many have a hungering after knowledge, and when they are courteously invited they often come into a meeting house and listen attentively. But with the open-services it is different. There is no ceremony. People are passing, or they are sitting outside their dwellings in the cool of the evening. They hear the song and they want to see who that man is. If you have a good voice you can be heard for half a mile in this climate in the dry season, and often a word spoken heard at a distance has more effect than nearby, and there is nothing to divert the attention."

We have no large crowds—seldom over 500, but this is because of the city being scattered and so much open space. Many hundreds hear, as a rule, every night.

No Halt to Mission Work in France.

A cable from Grenoble, dated August 9, has come to Dr. E. W. Byashe, head of the (N.) Methodist France mission, now in the United States on furlough. "Up to this time," reads the dispatch, "our missions and workers have not suffered in consequence of the hostilities. The stations being somewhat removed from the scene of actual conflict. Dr. Byashe thinks there will be no serious handicap to the work except that due to the absence of men from nineteen to forty-eight years of age, whom their president has call to the colors."

CHRISTIAN CHURCH

Special Sermon on Education Postponed From Last Sunday Night to Next Sunday

Because of rain, the special sermon on "Some By-products of Education," that was to have been preached at the Christian Church last Sunday night was postponed until Sunday night, September thirteenth. The personal invitations sent out last week are extended to this week. The public, and especially all High School pupils are invited to be present. Miss Goldie Weir, a former popular teacher of the High School, will sing a solo at this service.

Dizzy? Bilious? Constipated?

Dr. King's New Life Pills will cure you, cause a healthy flow of bile and rid your stomach and bowels of waste and fermenting body poisons. They are a Tonic to your Stomach and Liver and tone the general system. First dose will cure you of that depressed, dizzy bilious and constipated condition. 25c all druggists.

SCHOOL OPENS

Large Attendance and Much Interest Shown at First Chapel Exercises.

ENROLLMENT GIVES FINE PROMISE FOR BIG YEAR'S WORK

Earlington Graded and High School opened with large attendance and enthusiasm yesterday morning. Members of the Board of Education, several of the alumni and a number of visitors and patrons of the school were present to witness the opening and lend their encouragement to the school and the faculty. Among the visitors was Miss Goldie Weir, of Popular Bluff, Mo., who was formerly one of our teachers in the eighth grade and high school.

Chapel exercises were held and several short, encouraging talks were made by visiting citizens including Rev. Brazelton, Rev. Grant, Frank B. Arnold, and Paul M. Moore of the Board of Education. The auditorium was filled and standing room was in demand, indicating a very encouraging enrollment for the first day of school. Indeed the children seemed pleased and enthusiastic to get back to school and members of the alumni appeared disconsolate, with no desk or lessons assigned.

Yesterday and today are largely filled with the work of organizing and the getting of the new books as required by the law passed by the last legislature. Tomorrow the regular school work will begin in earnest.

Names of all teachers and their places in the school have been already announced, including the two new teachers, Miss Emma Bedford, fourth grade, and Miss Friada Heller, Domestic Science, and Arts and Assistant High School. The domestic science work will begin at once but cannot be fully developed until it is decided what additional equipment it will be practical for the School Board to install and such equipment can be put in. The Board of Education has under consideration the installation of the most modern system for cooking by electricity in this department provided the cost may be figured within reasonable limits.

At the opening exercises Supt. Dudley made an inspirational talk in which he expressed his faith in the faculty and confidence in the co-operation of the patrons of the School and the public at large to make this the best year the Earlington School has ever known.

There will probably be an increased number of pupils enrolled from points outside the district, both in the high school and the grades.

Jefferson County

in the Lead in Forces

Enlisted Against Illiteracy

Jefferson County has more volunteers in Kentucky's illiteracy campaign than any county in the State. Jefferson County school graduates, one hundred and two in number, were the first class of common school graduates in the state to volunteer to each teach one illiterate. Superintendent Orville J. Stivers and ninety-five of his teachers have volunteered to teach moonlight schools. Mrs. Will S. Hays, of Louisville, will see active service in the Jefferson County campaign, as will Mr. J. W. McConathy, who was President of the Kentucky Educational Association some twenty years ago.

FOOD DEALERS ARE INDICTED

31 Merchants of Washington Charged with Fixing Prices Following Probe of Attorney General.

GREGORY WILL URGE PRISON SENTENCES

Washington, Sept. 4.—Thirty-one food dealers were indicted here today by a Federal grand jury under the Sherman law on counts changing price fixing.

It was the first big development in the investigation the Department of Justice is conducting at the direction of President Wilson, against food dealers who are alleged to have seized upon the European war as a pretext to increase the cost of living.

All the indicted men are local produce dealers or commission merchants. No nationally known firm was indicted.

Will Urge Imprisonment

At the Department of Justice it was said Government agents working in many States for evidence of price-fixing were expected to make reports soon which officials hoped would be the basis of other indictments. Attorney General Gregory has this to say:

"Under conditions now existing throughout the world, capitalization of misfortune and oppression of our own people by the arbitrary increase of the prices of foodstuffs are so peculiarly reprehensible that, whenever convictions can be obtained, the Government will insist upon sentences of imprisonment—no fine or no civil remedy will be deemed adequate."

"United States Attorneys are being instructed promptly to ask for indictments whenever the facts will permit, to push these to early trial, and, upon convictions, to insist upon prison sentences."

Price Fixing Charged

"It must, of course, be remembered that, without the District of Columbia, only those agreement and combinations which affect directly interstate or foreign commerce can be reached. As to other matters, State statutes must be relied upon."

The men indicted here today are charged with having fixed prices every day by "ballots," "suggestions," or verbal agreement, and to have circulated price lists which completely eliminated a competitive market for food. That is alleged to be an unlawful restraint of trade prohibited by the Sherman Antitrust Law between the States and in Federal districts. The penalty on conviction is a year's imprisonment or a \$5,000 fine or both.

Bench warrants were issued for all the indicted men, and bail was given for their appearance in court.

Ollie James Interested

in Moonlight Schools

Senator Ollie M. James offers, through the Kentucky Illiteracy Commission, a prize of [\$50] to the teacher who teaches the best moonlight school this year, the Illiteracy Commission to judge it from the results: number enrolled, average attendance, illiterates taught and general interest. This will be a reward and an honor for some teacher. Let some one in our county start a moonlight school and win it.

NEW BUSINESS FOR EARLINGTON

Mr. J. E. Maloney to Engage in Day Cleaning and Pressing Business Will Also Make a Specialty of

\$15.00 SUITS AND OVERCOATS

Earlington is to have a new business and one that has long been needed. Mr. Jas. Maloney will engage in the dry cleaning and pressing business in the stand formerly occupied by Theo. L. Watts, and will also make a specialty of \$15.00 suits and overcoats. The new firm will be known as the Earlington Dry Cleaning and Pressing Store. Mr. Maloney has engaged a first-class tailor to work for him and make all necessary alterations, \$15.00 suits and overcoats will be made to order and every garment guaranteed to give satisfaction. The new concern will be open for business about Sept. 15 and the Bee takes pleasure in making this announcement. Mr. Maloney is well known to the people of Earlington and vicinity having been engaged in business here for a number of years and we feel sure that the people of Earlington will take pleasure in patronizing him.

MURDER AND OTHER CHARGES MADE AGAINST COLORADO STRIKE LEADERS

Trinidad Paper Says Other Indictments and Arrests Will Follow

The Trinidad, Colo., Chronicle-News gives this account of the arrest of and charges against strike leaders at Trinidad, reported in the dispatch of Sept. 1:

Arrests of six members and officials of the United Mine Workers of America on true bills filed by the Las Animas county grand jury were made today. Those arrested are: William Diamond, international organizer and strike leader, lessee of the Free Press; Victor Bonomi, a former bartender and sympathizer; Pete and Lawrence Cescolini, saloonmen; Frank Wilson and Chas. Hines. These men are held on various charges including murder, accessory to murder, assault and other offenses growing out of the coal strike and the killing of coal company employees and mine guards in actual battle. The six are in the county jail.

Diamond has been the official leader of the strike and now faces three or four distinct murder charges, growing out of the killing of John Nimmo, Thos. Wheatley, Mack Powell and others. The Cescolinis, Hines and Wilson are also confronted with the same charges and Bonomi for the death of Jacob Smith. Other indictments will be filed this afternoon and other arrests made.

One Hundred Speakers to Stump the State Against Illiteracy

The list of one hundred speakers, to speak in various sections of Kentucky in the cause of stamping out illiteracy before the next census is taken, is being made by the Kentucky Illiteracy Commission at Frankfort, and is almost completed. This will include some of the State officials, and men and women prominent in educational circles of the State.

CIRCUIT CLERK'S RACE TO BE LIVELY

Field Full of Candidates for Position Now Seems Assured

The circuit clerk's race in Hopkins county promises to be a lively one next year, as well as the circuit judge and commonwealth attorney race, all of which will be settled at the same primary next August. It is pretty well assured now that there will be four candidates in the field and the chances are "several precincts are yet to hear from." John Reading, who has been deputy in the circuit clerk's office for several years; R. T. Whittinghill, the well known insurance agent who was second in the race before; Jewell Logan, of the Dalton country, and Chas. Livingston, of Mortons Gap, are all reputed to be candidates. The names of James Maloney and Jno B. Brasher are mentioned. This field of candidates would make things lively, but if more come out it would make things "more lively," of course. The Bee wishes to state that it has plenty of room in its announcement department for all comers in the district and county fields.

PAUL M. MOORE, President

To all County Judges,
County Attorneys, Magistrates
and County Road Engineers
Gentlemen:—

I wish to call your attention to the fact that the life of steel bridges depends on the care which they are given, and one of the things that you cannot afford to overlook is that of painting.

Your bridges should be painted this fall before the weather gets bad, and by doing so you will prevent them from rusting out during the winter months.

I would advise that the best results can be obtained by the county purchasing the paint and employing some reputable man to do the work. Good bridge paint can be bought for about \$1.50 per gallon and a rough rule is to buy one gallon of paint for each coat for every ten feet in length of bridge. We also recommend the use of red lead, ground in linseed oil for the painting of bridges. This will preserve the bridge for about five years, provided the bridge is thoroughly cleaned of all rust and dirt before painting and two coats are applied.

The steel can best be cleaned of rust, grease, dirt, etc., by the use of a wire brush or sharp edged tool.

In case two coats are applied, they should be of different

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." Panama Pacific

INTERNATIONAL EXPOSITION

SAN FRANCISCO

To be Given the Most Popular Teacher in Hopkins County

WHO WILL BE THE LUCKY TEACHER TO WIN THIS WONDERFUL VACATION NEXT YEAR?

The Bee has completed arrangements to send the most popular teacher on a four weeks' trip to the two big expositions in California next year, the Panama-Pacific International Exposition at San Diego. The Bee realizes that a trip of this kind will benefit our teachers greatly because 1915 will be a historic year, a red letter year not only in American History, but in the history of the world. An event of a lifetime—1915—marks the completion of the greatest achievement of man in the history of the world—the Panama Canal. The completion of this achievement will be celebrated in San Francisco by the greatest exposition the world has ever seen: The Panama-Pacific International Exposition, in which the countries of the world will participate on an unprecedented scale.

The free trip offered will be educational and instructive as well as entertaining. The routes traversed to the Expositions and return will be through the "Fairyland of the West"—a magnificent trip by rail across the continent, through scenic New Mexico and Arizona where are found Indian pueblos, petrified forests, snow-capped mountain peaks and titanic chasms. The Grand Canyon of Arizona is the world's most sublime scenic wonder, miles wide, a mile deep and painted in all the colors of the rainbow; the old missions in California, with their sandaled priests and Spanish customs; the Panama-California Exposition at San Diego; Los Angeles with its many attractive sights and Orange Groves; then the great San Joaquin Valley to San Francisco and the Exposition.

On the way back via Nevada, the Great Salt Lake and the Land of Mormons, Pike's Peak, and the mountains of picturesque Colorado with their awe-inspiring grandure. The trip of a lifetime. From an educational standpoint, the trip is truly a wonderful one.

THE PLAN

Here is the plan the Bee has prepared for sending the most popular teacher on this four weeks' vacation. Beginning in this issue the Bee will publish nomination coupons for our readers to use in nominating their favorite teachers. Cut out these coupons, fill in with the name of the teacher you would like to have sent on this big trip. The nominations will be held open for three weeks. The names of the nominees will be published each week.

Each subscriber to the Special Clubbing Combination Offer will be entitled to Mileage Stamps. Each stamp represents one mile of the journey to San Francisco. Ten Mileage Stamps will be given with each subscription, these in turn can be given to your favorite teacher, who will be provided with an International Mileage Book and the teacher who succeeds in getting the largest number of the Mileage Stamps in her book by the close of the contest will be awarded the Free Trip to the Exposition.

To make it easy to get enough mileage stamps to win this great vacation trip, the Bee has arranged with four of the best and most widely read magazines, Woman's World, Household, People's Popular Monthly and Farm Life. We will offer a year's subscription to all four magazines, together with one year to the Bee, at the special price of \$1.25 for all five. Each order entitles the subscribers to ten Mileage Stamps.

Send the name of the teacher you have picked out to go on this vacation, then help her to earn the trip by having your friends subscribe for this big bargain and get as many Mileage Stamps as possible. Scholars, get busy and secure new subscribers for this remarkable combination clubbing offer. Help send your teacher to the Exposition.

RULES OF CONTEST

Any school teacher in Hopkins county can be nominated. Each issue will contain nomination blanks. Fill in the name of your favorite and mail or leave the nomination blank at our office. Every subscription to the Special Combination Clubbing offer will entitle the subscriber to Ten Mileage Stamps to give to his favorite teacher. Mileage will be given for combination orders only; no mileage will be allowed for a separate subscription for any one of the five publications in the combination. Subscription blanks will be furnished to the contestants and their friends at this office.

There are no restrictions as to territory in securing combination orders and mileage. The date of the close of the contest will be announced later. Ample time will be given, as the Exposition does not open until February, 1915.

The teacher having the greatest number of stamps in her mileage book will be declared the winner. For any additional information address, Free Trip-Exposition Bureau, c/o Earlington, Ky.

Nominate your favorite teacher on this blank, then mail or leave at Bee Office.
